Automatic Group Plc

# Welcome to the Automatic Group

**The Automatic Group** have been trading since February 1982. Initially, the business was involved in supply and maintenance of Domestic Intruder Alarm Systems and Commercial systems, with the option of being connected to a British Standards approved 24 hours alarm receiving centre, using Redcare, Redcare GSM, Dual Comm GSM or Digital Communicator.

Since these early days, the Automatic Group have moved into installation and maintenance of Fire Alarm Systems and Emergency Lighting Systems and are now able to provide insurer approved systems to Shops, Offices, Hotels, Restaurants, Care Homes, Industrial Units, Schools, Colleges and Universities, Multi-Occupied Apartment Buildings, NHS Trusts and Breweries.

We are proud that many of our Clients have stayed with the Company from day one and many local authorities and housing association contracts in place are still with us after several years. This endorses the Company policy of offering excellent service and value to customers.

We are also able to offer various payment methods including direct debits on maintenance work and leasing on installation work.

## **The Automatic Group can install and maintain the following throughout the North West of England:**

- Intruder Alarm Systems – Commercial and Domestic
- Access Control Systems
- CCTV Systems

## Security

Intruder Alarm Systems have evolved over the years into Building Management Systems and are capable of providing data such as event logging, opening and closing times and verification.

**The Automatic Group** can supply, install service and maintain intruder alarms, access control system and exterior detection systems covering the industrial, commercial and residential market place throughout the North West of England.

**Security Systems** – All systems comply with British and European Standards and the codes of practice of the NSI. We are Nacoss Gold Accredited. Installations have the option of being connected to a British Standards approved 24 hour alarm receiving centre, using Redcare, Redcare GSM, Dual Comm or Digital Communicator.

**Exterior Detection** – Systems covering industrial, commercial and residential properties. Automatic lighting can be incorporated for added security and courtesy situations.

**Access Systems** - There are a wide range and types of access systems that we can install and maintain to current NSI code of practice (NACP 30). These include key fob access, swipe and biometric (fingerprint and keypads). All of these can be stand alone or PC networked to interlink different doors. In addition, these systems can be integrated with alarms, CCTV, gates and barriers, allowing you to grant different permissions. Typical applications - small/medium business premises, large corporate premises, sports clubs, multiple-site premises, storage units, universities, government buildings and car parks.

Half of burglars are deterred by occupancy visible burglar alarms or high visibility at the point of entry - *The Home Office*

**Door entry systems** - We install and maintain various types of Door Entry systems; digital, functional, audio & video, from light use to very heavy duty use to cope with high levels of abuse. Our range of units cover from the top end systems with stainless steel panels and colour video to basic one handset simple entry systems. Typical applications include Offices, industrial units, domestic premises, blocks of flats. We are also able to install Concierge systems and systems which comply with the Disabled Access and DDA (1995) Regulations.

**Staff Attack Systems** - For all Staff who are at risk from possible attack, we offer an Infrared Staff Protection System. All at risk staff carry a transmitter which fills the area with infrared signals that are picked up by a special receiver which then displays where an attack has taken place and summons help.

**Automatic Alarms Ltd** can supply, install, service and maintain all types of fire alarm and security systems, both large and small. In order to give you an idea of the excellent value for money, our service represents, please contact us indicating your requirements.

**Tel: 0800 328 0462**

## Closed Circuit Television

**The Automatic Group** has a wide experience in the installation and maintenance of CCTV systems complying to NCP104 / BS 8418. All systems are tailor-made to suit your application and budget using the highest quality equipment. CCTV is successful in convicting criminals for theft and vandalism, providing evidence in a Court of Law.

We are also experienced in Covert Systems where cameras can be hidden in every day fittings, such as clocks, passive infra red detectors, smoke detectors, making them virtually invisible to the eye.

From single camera installations to fully networked systems, the Automatic Group can provide the service, including remote monitoring options.

**The Automatic Group** are a BS EN ISO9001:2008 Company (Certification No. NAC/G/267) and an approved installer of intruder alarms, access control and CCTV systems (NSI enrolment number 1046) complying with the Council's rules and codes of practice at all times.
